ABOUT THE PRINCESS VANESSA YEMILO FOUNDATION (PVYF)

The Princess Vanessa Yemilo Foundation (PVYF) is a youth-focused nonprofit organization committed to empowering young people to become purpose-driven leaders, innovators, and changemakers who contribute to sustainable community development. We believe that every young person has the potential to create positive change when equipped with the right mindset, practical skills, opportunities, and support.

Across Nigeria and the world, communities continue to face challenges such as unemployment, poverty, environmental degradation, poor mental well-being, and limited opportunities for young people. At the same time, many young people struggle with a lack of direction, confidence, and access to quality learning opportunities. At PVYF, we believe that before young people can solve society's problems, they must first be empowered to discover their purpose, develop their potential, and build the capacity to lead.

Our programmes combine life skills, leadership development, mental wellness education, vocational and digital skills training, artificial intelligence (AI), and environmental sustainability to prepare young people for the future. Through practical initiatives such as AI-powered digital storytelling and eco-craft, participants learn to create innovative solutions, raise awareness about social issues, transform waste into valuable products, and contribute to more sustainable communities.

Since commencing operations, PVYF has empowered hundreds of young people through school outreaches, skills development programmes, advocacy initiatives, and community engagement activities across Kaduna State. As we continue to grow, we remain committed to raising a generation of young people who do not simply dream of a better future but are equipped to build it through leadership, innovation, service, and sustainable action.

CORE FOCUS AREAS

PVYF focuses on:

- Sustainable Development Goals (SDGs) awareness
- Youth leadership development
- Life skills and soft skills training
- Digital and vocational empowerment
- Gender equality and inclusion
